DETAILED ACTION

1. Claims 1-12, 19-26 and 28, previously allowed in the Notice of Allowability of May 28, 2009, are now pending in the instant application. In said Allowance, the Examiner had inadvertently failed to include claims 29-31 in the set of allowable claims. Accordingly, claims 1-12, 19-26 and 28-31 are now allowable.

REASONS FOR ALLOWANCE

2. Claims 1-12, 19-26 and 28-31 remain allowable over the prior art, as renumbered claims 1-24. The following is an examiner's statement of reasons for allowance:

This invention relates to novel thiazole-2carboxamide derivatives, their pharmaceutical compositions, and their methods of use. The allowable compounds are limited to compounds according to formulae (I), (II) and (II-a). Certain thiazole compounds are known in the art as having pharmaceutical activity, however the aspect of preparing the instant claimed thiazole-2-carboxamides is novel and unobvious. The instant compounds were tested for thrombopoietic activity (please refer to inhibitory results, ED₅₀ values, etc. found in Table 1 of the specification on pages 230-231), which makes them useful as anti-coagulant agents for treating hemopathy, for example. After a thorough search, the closest of prior art, EP 1253142 A1 to Takemoto, et al. was found to teach similar thiazoles. However the 'EP document fails to teach or render obvious the same instant claimed compounds, and does not fairly suggest methods of using the instant claimed compounds for treating hemopathy.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
